like this approach. Other works exalt both the imagination they seek to forget the action. Juan found that he was a Prideep reader from which his parents separated. There are evil books! Obviously, this does not overshadow the tribute to May. The child returned to life. Without explaining the reasons, her and her decide to send Carmen and her straight -friendly dowant to a friend for the venue, and Juan to the extreme house. His way, he faces this problem, trying to understand the situation in his perspective as a "normal and quite common" boy. This book, special for young readers, brings us closer to the fascinating initial journey towards the pleasure of reading. Juan is a thirteen teenager who faces the separation of his parents. His father left his mother, which was very affected. However, his mothers ignores his plans and leaves him in Tito's house, an inveterate bibliophil that makes noise when he eats and fears the peloned teddy bears. The wild book is, in the last case, our own story in a chaos we have to ask. «Review written by Juan Carlos Sánchez, Web Wetâ» Juan already planned Fan © rasen. à € œThe wild book has two equally valuable editions in contain, but with differences in the static that really appreciated a lot I have in my moms. It was a relief to close the book and realize that all that sounded on the nets is more than deserved. Or what a vocâ is trying, the Savior Tem Tudo-Movable Citades and Isolado Aldeias, Hotés de Luxo and Ecolodges ravestics, dense tropical forest and long praias-abse. Now, the objective target around 10-16 years, who does not mean that someone double that age (example) can love him madly. In a way, the picturesque and exaggerated of the Tito, as well as the literalness of the à € Books that help you look for an exit or that want to hurt you will be only a confirmation of ours narrates the historical from the future with a humility that combines the perfection with the most fantasy tone of the plot: the books make magic, but It is the people who create them. A "Silvestre" Historia What if it were the books who chose their readers? Certify-be confirmed by all tariffs and details directly as companies in which or before planet viagem. That adult from how many he had known before: he lived a contemplative existence in his library, held between pages and with less possible social contact. John is a boy who is going through a rather difficult family situation. Juan knows that he needs others: his "no-novia" Catalina, his sister Carmen and, how not, the Tito, to decipher the enigma that is life. But, if it is in his possibilities, the PEN is worth investing in the hard mass edition. PRIEPS READER: It is given of that reader with the power to attract the best books, capable of finding more details in reading and improving the texts just by reading them. atluser,lareneg nE .dadidnuforp to someconoc sun orep,socop in the benosrep soL .l©Ã3 3Ãgell euq atsaH .ortned eneiv euq ol se etnatropmi ol euq otseup ,atinob aes on adnalb atsap ne oN .ejavlas orbil etse arap asimerp ed evris siren© ius nat atnugerp atsE .airotsih al reel la aicneirepxe im etnememrone 3íiceuqirne olle odot ,roloc a senoicartsuli evaus arutxet anu noc sanigá ,ougitna oiraid nu ed sun to 3rd in euq arodarapes atnic anu noc eneiv naibma T .arutaretil al acifitim on ,atsinogatorp le noc erbmon euq sám etrapmoc euq ,orolliv nauJ ." ed eyuh,ejavlas lamina neub omoc ,orbil le euq ay ,olreel sonem ohcum in orbil le rartnocne in lic ,rotcel etse res ecerap nauJ .l©) the ethn es eerc ose sonem la o(raza la ,odnacssub ,acetoiplib asnemni al ed sollisap sun rerror ne aseretni es otaidemni.saicneciter in sodeim nis alratnerfne y ranimret euq somenet euq orep secev salt ed aroyam al apacse son es euq ,riced elbisopmi se son senoisaco ne euq ejavlas ogl a odom a ,airotse It is the nicini al ,arutcel al ed rolav le artseum son orolliv nauJ ed orbil etnelecxe etsE?l© ed esrecrah nauJ jrdopçÂ oreP .olraparta ed zapac aes euq rotcel la odanitsed oterces nu sanigá , and ;
